This document is part of an integrated  
 (b) ... reported from the ... it must be  
 subjected to individual systematic review.

1. Attached herewith are consolidated lists for the month of April of indigenous service personnel assigned to the Edict and Educator Projects.
2. A personnel data sheet containing necessary information is enclosed for Martha Fink, who performs household services at GERM(1).
3. In view of the fact GERM(1) was occupied operationally by U, there was no further need for the services of the watchman Wilhelm Kolner. Consequently, he was released from duty as of 16 April 1949. He was paid salary up to and including 25 April 1949, in view of the fact that when the property was occupied, he did not receive the customary thirty days' notice of termination of employment.
4. Erika P. Seipp was released from duty on 15 April 1949, when GERM(1) was occupied operationally by U. It was considered more advisable, from a security standpoint to release Seipp for employment elsewhere in the Military Community, and retain the services of Fink who was working as maid for a member of U's operations. The salaries of both Seipp and Fink are paid out of funds supplied the local Military Labor Office by U. S. Army authorities.
5. Alfred Schubert, guard at Greenwood, requested release from employment to afford him an opportunity to take advantage of a position of more permanent status, offered him by the German police department where he was originally employed.

Educator

His request was granted and his services were terminated on 30 April 1949. Steps are being taken to recruit another guard for this vacancy. Meanwhile, Greenwood is being protected by the two remaining guards but it is felt the services of three individuals are required in order for the property to be fully protected, in view of the expensive and critical material and equipment located in the site. Schubert's dismissal should not create a serious security hazard, in view of the fact that he and his co-workers have always been under the impression they are in the employ of the U. S. Army engineers of the particular military area in which the site is located.

6. The background investigations completed on the guards located at the Greenwood site are forwarded with this report.
